AP SCHOLAR AWARDS

For Immediate Release

Contact: Mr. Dan Gilbertson, Principal

October 8, 2009

Seven students at Sebastian River High School have earned AP Scholar Awards in recognition of their exceptional achievement on AP exams.

The College Board's Advanced Placement Program (AP) provides motivated and academically prepared students with the opportunity to take rigorous college-level courses while still in high school, and to earn college credit, advanced placement, or both for successful performance on the AP exams. About 18% of the nearly 1.7 million students worldwide who took AP exams performed at a sufficiently high level to also earn an AP Scholar Award.

The College Board recognizes several levels of achievement based on students' performance on AP exams.

At Sebastian River High School:

3 students qualified for the AP Scholar award by completing three or more AP exams with grades of 3 or higher. The AP Scholars are: Andrea Johnston, Vanessa Ramos, and Natalie Wolff.

Through more than 30 different college-level courses and exams, AP provides motivated and academically prepared students with the opportunity to earn college credit or advanced placement and stand out in the college admissions process. Each exam is developed by a committee of college and university faculty and AP teachers, ensuring that AP exams are aligned with the same high standards expected by college faculty at some of the nation's leading liberal arts and research institutions. More than 3,600 colleges and universities annually receive AP grades. Over 90% of four-year colleges in

the United States provide credit and/or placement for qualifying exam grades. Research consistently shows that AP students who score a 3 or higher on AP exams (based on a scale from 1 to 5, with 5 being the highest) typically experience greater academic success in college and higher graduation rates than students who do not participate in AP.

The College Board is a not-for-profit membership organization whose mission is to connect students to college success and opportunity. Founded in 1900, the association is composed of more than 5,600 schools, colleges, universities, and other educational organizations. Each year, the College Board serves 7 million students and their parents, 23,000 high schools, and 3,800 colleges through major programs and services in college readiness, college admissions, guidance, assessment, financial aid, enrollment, and teaching and learning. Among its best-known programs are the SAT, the PSAT/NMSQT, and the Advanced Placement Program (AP). The College Board is committed to the principles of excellence and equity, and that commitment is embodied in all of its programs, services, activities, and concerns.
